

Tupas y Set

The background is a gradient from dark blue on the left to purple on the right. It features abstract geometric patterns: a network of white dots connected by thin white lines on the left, and several thin white triangles of various sizes scattered across the right side. A thin white horizontal line is positioned near the bottom right.

Tuplas

Tupla: La colección de medidas o miembros se llama Tupla y se construye utilizando “()”, separado por “,”.

Ejercicio1

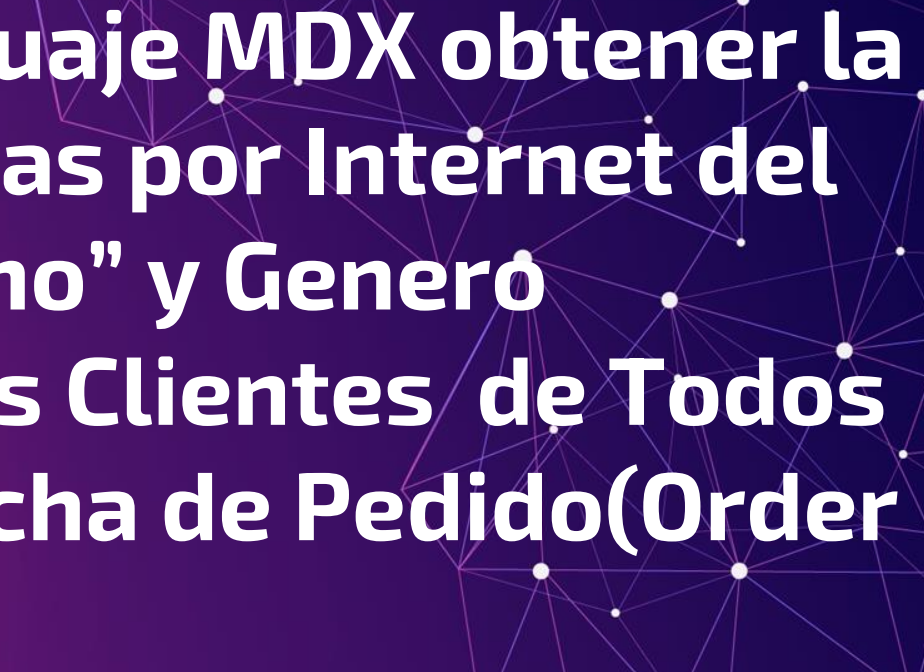

The background of the slide is a solid purple gradient. Overlaid on this is a complex, abstract geometric pattern. It consists of numerous small white dots of varying sizes, which are interconnected by thin, light purple lines. These lines form a network of irregular polygons and triangles, creating a sense of depth and connectivity. The pattern is more dense on the right side of the image and fades slightly towards the left.

An abstract graphic in the top right corner of the slide. It consists of a network of white dots of varying sizes connected by thin, light purple lines. The dots are scattered across the upper right portion of the image, with lines forming a complex, web-like structure that extends towards the center.

Mediante el lenguaje MDX obtener la Cantidad de Ventas por Internet del Genero “Masculino” de los Clientes de Todos los años de la Fecha de Pedido(Order Date).

Ejercicio2

The background of the slide features a smooth gradient from a deep purple on the left to a slightly lighter shade on the right. Overlaid on this gradient is a complex, abstract geometric pattern. This pattern consists of numerous small white dots, some of which are connected by thin, light purple lines, creating a network-like structure. The lines and dots are more densely packed on the right side of the image, while the left side is mostly empty except for the gradient.

An abstract graphic in the top right corner of the slide, featuring a network of white dots connected by thin white lines, set against a dark blue background. The dots and lines form a complex, interconnected web-like structure.

Mediante el lenguaje MDX obtener la Cantidad de Ventas por Internet del Genero “Masculino” y Genero “Femenino” de los Clientes de Todos los años de la Fecha de Pedido(Order Date).

Ejercicio3

The background features a smooth gradient from a deep purple on the left to a dark blue on the right. Overlaid on this is a complex, abstract network of white dots of varying sizes, interconnected by thin, light-colored lines. These lines form a web-like structure that resembles a molecular model or a data network, with some areas being more densely connected than others. The overall aesthetic is modern and technological.

Ejercicio4

The background features a smooth gradient from a deep purple on the left to a dark blue on the right. Overlaid on this is a complex, abstract network of white dots of varying sizes, interconnected by thin, light-colored lines. These lines form a web-like structure that is denser on the right side of the image, with some lines extending towards the left. The overall effect is a modern, digital aesthetic.
